

Skill -2

Aim to recode the input of the terminal simulating the shell it understands the inputs give and return the i/O commands. Also programm is capable of doing the shell command and executing them.

Second programm can do the text but not the commands

```
Problems Output Ports Terminal Debug Console
cd "/home/hari/05/2520090048_skill/skill-2/" && gcc skill-2a.c -o skill-2a && "/home/hari/05/2520090048_skill/skill-2/"skill-2
a
